Chalice is coming to St. Benedict Parish! May 11 & 12

At the May 11-12 Masses, Canada's largest Catholic Child Sponsorship organization will provide you the opportunity to begin a relationship with a child in the developing world through the benefits of Child Sponsorship. It is a powerful way to reveal God's love for those most in need.

Chalice works in impoverished communities to help struggling families overcome the cycle of poverty. Education is the first and most important step in breaking the cycle. Too often, children must skip class or drop out of school to carry water, care for siblings, or earn money for their families.

Sponsorship gives children the support needed to overcome obstacles so they can attend and stay in school, and allows families to provide nutritious food and better care for their children. Children are selected for sponsorship based on need and family circumstances, regardless of race, age, ability, gender, or religion. Education gives every child the opportunity to shine.

Visit chalice.ca for more information about Chalice and its mission.

Planning to Breastfeed? Breastfeeding and charting the Billings Ovulation Method Class

Tuesday, April 30, 2024

7:30 PM - 9:30 PM Via ZOOM

The Billings Ovulation Method is a natural method of fertility management, free from drugs and devices, compatible with breastfeeding and highly effective to postpone/avoid pregnancy. A unique feature of this method is being able to recognize when you are infertile, as well as when you are fertile. Your reproductive system is wonderfully complex, yet the signals it gives you can be quite simple, helping you identify the fertile and infertile times in your cycles. It's not a "one-size-fits-all" approach; it works with each woman's unique patterns of fertility and infertility. Our instructors help you learn this method.

After giving birth, you may experience a period of natural infertility that can last for many weeks or months while you breastfeed your baby. The Billings Ovulation Method enables you to recognize this time of infertility. Whether your fertility returns at six weeks, six months or even longer, you will be able use the Billings Ovulation Method with confidence.

"Looking back on all those months, I wish I had known about the Billing Ovulation Method. I was infertile the whole time." Mary Jane (30 years old)
